

What attendees have said

Very good course. Highlights the importance of clear communication between team members. I would recommend the course to others

Very good and well run course. Scenarios very good, feel confidence has improved

Excellent course. The grip of fear in managing this group is lifted. At least I have a system to manage and what to consider.

I learnt quite a lot. I think it will benefit me as I gained confidence and ultimately will benefit the babies I'll care for

A really good interactive day. SPRinT sessions in the afternoon were very useful and emphasised real team-work

Lecturers were very knowledgeable and presentations delivered well

Course Directors

Dr Margarita Burmester

Consultant Paediatric Intensivist
Co- Director SPRinT Programme

Dr Mary Lane

Consultant Paediatric Anaesthetist
Co- Director SPRinT Programme

Course programme

- 08:30 Coffee & Registration
- 08:50 Welcome & aims
