

SPRinT Online Simulation Faculty Development Course

This is an innovative and interactive on-line simulation facilitator course designed for all health care professionals with an interest in simulation, and how simulation can be used in the healthcare arena to enrich learning, enhance individual & team performance, and improve patient safety.

It is run over two days on Teams to maximise participant interaction and learning. Expert SPRinT faculty provide knowledge of the principles of adult learning, debriefing theory, learning cycles and how simulation complements multi-disciplinary team performance. Videos of real simulated scenarios and online participation in teaching provide an authentic learning experience aimed to maximise skill development.

Course Highlights

Day 1

- Crisis Resource Management
- Adult learning theory for effective simulation-based learning
- Utilising Effective Debriefing Techniques
- Simulation Learning cycle

Day 2

- Let's Get Technical
- Debriefing practical workshops and critique
- Designing and delivering a successful scenario
- Practical application for your own practice

Who is it for?

- Trainees, NCCG and Consultants from all specialties, as well as Nurses and AHPs interested in facilitating simulation courses at their own trust.
- This course is applicable to professionals working in both paediatric and adult practice.

Course Dates

- 22nd & 23rd March 2021

This course is free for participants inside the London region. A limited number of places are available for those outside this region for £170

Course Directors

Dr Margarita Burmester – Consultant Paediatric Intensivists / Co-Director SPRinT Programme

Dr Mary Lane – Consultant Paediatric Anaesthetist / Co-Director SPRinT Programme
